

# Highs and Lows

Yo  
Eskiboy aka Wiley  
Yo

So many highs and lows in one lifetime  
I avoid knife crime  
It's not a nice sight  
Thought of this people pull out the Another life gone, and I'm trying to get  
my life right  
Even though I play loud in your hi-fi  
Appear at your screen, connected to the wi-fi  
Down to earth like But I like hype for the hype, no hype-guide  
And I'm under the kush no wide eye  
You can hear the like it's mine, I  
Tell 'em "If you don't like me, fly high"  
Cause that's what I'm gonna do  
Until I drop back down, I'm right in the loop  
LA to London like Tinie and Snoop  
All along I know I kept it steady  
But now I'm ready

There are highs and lows in situations at surface  
We all know this  
In this kind of job you're bound to make money  
But the money you make, you won't notice  
When zeroes staring at ya, glaring at ya, you lose your focus  
That's why I go round the country, making magic, hocus-pocus  
But when I drop down, it's all part of the highs and the lows  
And when I go up, it's still part of the highs and the lows  
But when I drop down, it's all part of the highs and the lows  
And when I go up, it's still part of the highs and the lows

I never had a forward-thinking parent  
Only two, that forgot I was alive  
Going back I was a child, they wanted to live more  
Don't hate them, but it's when I try  
I'm going on happy, don't lose my temper  
Don't rate stars, if I was a mentor  
But I still standby with a mind of a guy in a landmine  
I mine for coal, while they mine for hangtime  
We all rest when my head says "stop"  
I keep going like I ain't gotta watch  
I lived on a fullback ting  
I approach war like fullback king:  
I've won, we win  
I travel the world cause I know no better  
Some hate me, cause they know no better  
I don't know what they put in this homemade ginger beer, but I sense it's pper
