

# Miss You

Wiley

She gone away, mad ting  
I know I can't be, but I'm relaxing  
I should just holla, I can't though  
Cos I'm a star-boy like Mavado  
Nuff gyal around me  
I got them vybzing, they run around me  
So anytime anybody ever gets caught at cheating  
You'll be in your yard, repeating

Since you went away, I've had a problem  
I can't sleep at night and it's cos I miss you  
I can find someone, but I don't wanna  
I might lose my mind and it's cos I miss you

Said I wouldn't do it a million times  
Then I done it another million times  
I can't talk no more I reply  
When you move on, I'm gonna wanna die  
Here's the cycle of life  
Might end up with more than one wife  
Might end up in trouble and strife  
In your front room thinking "why?"  
Singing

Since you went away, I've had a problem  
I can't sleep at night and it's cos I miss you  
I can find someone, but I don't wanna  
I might lose my mind and it's cos I miss you

I dissed you, now I miss you  
I loved you, now I hate you  
I don't want to, but I rate you  
See you beside I would hate to  
Plus in this life you gotta make do  
With the cards you and where they take you  
What don't break you, will make you  
Next part of your life, like phase 2

Since you went away, I've had a problem  
I can't sleep at night and it's cos I miss you  
I can find someone, but I don't wanna  
I might lose my mind and it's cos I miss you

She gone away, mad ting  
I know I can't be, but I'm relaxing  
I should just holla, I can't though  
Cos I'm a star-boy like Mavado
