

## U Were Always, Pt. 2

Wiley

Told me that you were at home sleepin' (liar!)  
So many times you took me for a fool  
Really you were goin' out late in the evenin' (slag!)  
In the club bang on the lash you were cheatin', up and down  
All them Victoria Secrets that you were keepin'  
That's not love that's breakin' the rules  
You think I'd never see those things you were tweetin'  
Cut so deep man couldn't stop bleedin' (check this!)  
I was out there tryna get that house, on the grind  
All I asked for was a "Well done, Junior!"  
Give my love to the boys, real shit  
Instead you want to argue and make up noise  
Shit so fucked up look at us now, fucked up  
No nice words comin' out of your mouth  
We get drunk and then we say its over  
Then, we get back together when we get sober  
I don't what's true anymore  
We're just goin' around in circles now

I remember the times when I called you my queen and my wifey to be  
But somehow I'm always in the wrong so I guess it ain't you, it's me  
All the fights and the hype got a G stressed out but I can't lose sleep  
But this time I know that's its over, bare more tings in the sea  
I remember the times when I called you my queen and my wifey to be  
But somehow I'm always in the wrong so I guess it ain't you, it's me  
All the fights and the hype got a G stressed out but I can't lose sleep  
But this time I know that's its over, bare more tings in the sea

If I told you before still would've got mad though (crazy ting)  
I know you don't want drama you don't want aggro  
I still can't work out why you would cause a big scene in Nando's  
We had a good ting goin' on but that's how that goes  
I was drawing away, in your house I didn't want to stay  
Don't know when I woke up I felt guilty for the whole day  
Too many women on my mind, too many swimmin' in my mind  
Now I'm out of control I've been steppin' out of line  
Yea she was a fling so it weren't nothin' major, it was just vibes  
When I roll with her she's got me in a natural high, no lie  
And the time we spent was so great I don't wanna blag  
I'm thinkin' different now babe I don't wanna try  
I wanna move cause I want a fresh vibe in the future  
I pick up on what's goin' trust, I'm not a snoozer  
I know you heard I was spendin' bare time in the boozier  
I know the ting we had was cool, but this tings much cooler  
Ice!
