

## Crazy Summer

Wilki

Wake me up when You go away  
Maybe i go mad, but i wanna say  
We have no way  
Live on me till tomorrow  
When you kiss (me) in the break of day  
I feel your hair all over my face  
I know i need you  
Live on me till tomorrow

Let's try to run into the rain

Let's recall the glare of flame  
Try to remind me day by day  
Of that crazy summer

That hot crazy summer

Wake me up in the break of day  
I wanna feel your hair on my face  
Want to remind you  
That hot crazy summer

That hot crazy summer

Where do we go now  
Come on bejbe :-)  
Where do we go my friend
