

# Run

Wilkinson

I wander slowly past your door  
Haven't been back here for a while now  
We kissed a thousand times before  
Do you remember?

You turn my hand and let me off  
As if we only had forever  
And we shone brighter than the sun  
Do you remember?

How we would run  
Like the tears I cried today, we would run  
Like the rain falls down my face, we would run  
Like the blood inside my veins, we would run  
We would run, we would run

We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run

But now I check this path alone  
I wish I had a way to take it back  
Back to the place I call my home  
I still remember

You turn my hand and let me off  
As if we only had forever  
And we shone brighter than the sun  
Do you remember?

How we would run  
Like the tears I cried today, we would run  
Like the rain falls down my face, we would run  
Like the blood inside my veins, we would run  
We would run, we would run

We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run  
We would run, run, run

We would run  
We would run  
We would run  
We would run
