

Take Us Home

Wilkinson

Time move faster than these tears fall down my face
It's getting harder here without you every day
My emotions dragging me onto the ground
All is said and done, I just need you around

I give you all my love, deeper living
I give you all my love, Heaven knows
Oceans between us, deeper feeling
River lead us, take us home

Oh, take us home
Oh, take us home
Take us home, home, home
Take us home, home,
I need your love here when the sun goes down

A million miles away, watching the world go by
With echoes of our love, singing outta my mind
Our worlds get twisted up, we're building barricades
We're pressing self destruct, watch the pieces break

And I give you all my love, deeper living
And I give you all my love, Heaven knows
Oceans between us, deeper feeling
River lead us, take us home

Oh, take us home where we are free
Hold me close, as close as we can be
Now we find you and me
Here and now, we're outta love
Take us home, home, home
Take us home, home,
I need your love here when the sun goes down
