

Christmas Love And You

Will Downing

Christmas stockings line the fireplace
Fire shadow dancing on your face
There is nothing served better
Than this moment together
I have Christmas, love and you

You and I as one perfectly
It's like heaven's hands made you for me
There is nothing served better
Thank this moment together
I have Christmas, love and you

There is snow everywhere
And the feeling in the air makes the season the one for sharing love
As we walk hand in hand I begin to see the reason why we came to be a
nd all you mean to me ohhhhh

(Pause to music)

There is snow everywhere
And the feeling in the air makes the season the one for sharing love.
As we walk hand in hand I begin to see the reason why we came to be a
nd all you mean to meee ohhhhh

Tender moments shared a special day
It's so wonderful my words can't explain
There is nothing served better than this moment together
I have Christmas, love and you
Love and you

Merry Christmas love
