

So You Wanna Be My Lover

Will Downing

Here I am ready and willing
Baby, come get to this
There's a space inside me to fill in
We can start with a kiss

I'll be good, better than good
But you must understand
I'm a man who's very demanding
You've got to give me the best that you got

So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl
So you wanna be my lover

You don't know how much I can give you
But you'll know real soon
If you want to be the center of my world
Here's what you got to do

Do me, baby, like I do you
Love your body and soul, oh
Want you to touch all of me
Take my heart in control

So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl

You don't have to play these games
Like some lovers do
Can't you see, I'm serious
I wanna give all my love to you

My lover, oh, yeah, my lover

So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl

So you wanna be my lover
So you wanna be my lover, my lover girl
So you wanna be my lover, my lover girl
