

# Handlebars To Freedom

Will Haven

let's dance, the come around  
the figure that dies  
rockin' rebel  
what a given

reveal the way  
from the weak and the coven  
what a stage

last chance, your wreckage  
you're weaving downfall  
like a wheelbase that's coming untied  
dawn the new day

we will wreck it all the way  
and when given the choice  
from the vagrant that claws  
now we wont fake it

what a play  
what a player

i laugh all the way

and proud yourself with ends  
and proud yourself to death

i found the way... tower!

the precious to protect  
the prejudice who kill

i found the way
