

This body feels frail
what have I done to deserve this constant bombardment
and now it's time to stand
do you want a piece of me
I will serve it up to you
I'm standing up to you
what do you think of that
with a torch in my hand
and I will put you down
do you want a piece of me
I will serve it up to you
violence wouldn't be a cure to my hate for you
but I bet I'd feel good to put you down
do you want a piece of me
I will serve it up to you
this is my fuck you song
