

# Baby Girl

Will Hoge

May the sunlight find your face  
Even when the rain does fall  
And get back on your feet again  
Every time you trip and fall

And keep your heart wide open  
And always taking in  
And even when it's broken  
Be strong enough to fix it up again

Oh little baby girl  
Sweet little baby girl  
Be strong in this great big world  
Oh little baby girl

And I hope your hands are steady  
And never need to make a fist  
And I hope that when you're ready  
You get one never ending kiss

And I hope that deep inside of you  
There's a sweet eternal song  
And I hope the words are pretty  
And that you'll always sing along

Oh little baby girl  
Sweet little baby girl  
Be strong in this great big world  
Oh little baby girl

And I hope your friends are many  
And that your laughter's always loud  
To help you when you're lonely  
And pick you up when you're down

And may your eyes shine bright love  
And learn to see the light  
And take the time to listen  
Decide yourself what's wrong or right

Oh little baby girl  
Sweet little baby girl  
Be strong in this great big world  
Oh little baby girl

Oh little baby girl  
Sweet little baby girl  
I wish I could hold your hand in this great big world  
Oh little baby girl

Oh little baby girl  
Sweet little baby girl  
Oh little baby girl
