

You Make Me Happy

Will Hoge

You can read me baby, like an open book
Stop me dead in my tracks with only just one look
What you see in me in just some kind of, mystery
But there ain't no doubt about the chemistry

And after all these reckless years
What doesn't kill us, makes us stronger
Ooh and after all these years
We're the only ones I know
Standing here on our own
'cause you make me happy

You make me happy [7x]

Hey babe you're not too blind to see
Well this may not be the bridge and perfect family
But what we have in common is, more than enough
To keep us going when the times get rough

'cause when the lights go down
And when it comes to you and me girl
Ooh you turn me inside out
Still in love with you today
'cause you make me happy

You make me happy [7x]

I wouldn't have it any other way
Still in love with you today

'cause you make me happy
You make me happy
