Do What You Will Do

Will Oldham

Do what you will do i will watch with you though i'm charged to wait awhile i will wait for you in style with you as a guide i stay awhile watch with me

i won't ask you to be friends with me
nor to stand by and protect
i can't ask you to lay hands on me
just to show me some respect

do what you will do...

and in rough times i can be with you laying early in my bed and in time i go to sleep and you lay a kiss upon my head

do what you will do...

if an end comes it is good to be in the presence of a few with a few friends is how it should be when everything is through

do what you will do...
