

# What's Wrong With A Zoo

Will Oldham

What's wrong with a zoo  
What's wrong with a zoo (2x)

I asked them in  
Invited them in  
Oh cordially

Sat each one down  
Down on the couch  
So I could see

What's wrong with a zoo  
What's wrong with a zoo (2x)

Show me some skin  
Kiss on my chin  
And kiss my mouth

I learned the way  
To love you today  
Was to have you down

Monkey was maimed  
Black and white aim  
A chimp no more

Monkey's last act  
Had been to attack  
A child of four

What's wrong with a zoo  
What's wrong with a zoo (2x)

So i pile misdeed  
Upon misdeed  
Throw in some love  
Where i see need of love

An eloquent way  
To bring an end  
Is exit the bay  
In graceful swim

A box folds in half  
And brings on a laugh  
From everyone

Who needs to sleep  
When sleeping just keeps  
Our life undone

What's wrong with a zoo  
What's wrong with a zoo (2x)
