

Ain't Such a Bad Place to Be

Will Young

Oh my God, I know, I know
I've been here before, before
Succumbed again, I'm jinxed again
But I still
Soldier on, be strong
The simple reason is I'm skin and bone
Best not be scared
Just to be aware that alone

It ain't such a bad place to be because we're opposites
I know you, so don't come creeping back,
I'm on my feet again
I'll show you, put you out like a cigarette
A metaphor not to forget
To forgive, it's positive

Oh come on, come on
Did you think that you could pull the wool over my eyes
Much to your surprise, alone

It ain't such a bad place to be because we're opposites
I know you, so don't come creeping back,
I'm on my feet again
I'll show you, put you out like a cigarette
A metaphor not to forget
To forgive, it's positive

Not negative
Live and let live
I ain't holding onto you

It ain't such a bad place to be
It ain't such a bad place to be

It ain't such a bad place to be because we're opposites
I know you, so don't come creeping back, I'm on my feet again
I'll show you

It ain't such a bad place to be because we're opposites
I know you, so don't come creeping back,
I'm on my feet again
I'll show you, put you out like a cigarette
A metaphor not to forget
To forgive, it's positive
