Ain't Such a Bad Place to Be

Will Young

Oh my God, I know, I know I've been here before, before Succumbed again, I'm jinxed again But I still Soldier on, be strong The simple reason is I'm skin and bone Best not be scared Just to be aware that alone

It ain't such a bad place to be because we're opposites I know you, so don't come creeping back, I'm on my feet again I'll show you, put you out like a cigarette A metaphor not to forget To forgive, it's positive

Oh come on, come on Did you think that you could pull the wool over my eyes Much to your surprise, alone

It ain't such a bad place to be because we're opposites I know you, so don't come creeping back, I'm on my feet again I'll show you, put you out like a cigarette A metaphor not to forget To forgive, it's positive

Not negative Live and let live I ain't holding onto you

It ain't such a bad place to be It ain't such a bad place to be

It ain't such a bad place to be because we're opposites I know you, so don't come creeping back, I'm on my feet again I'll show you

It ain't such a bad place to be because we're opposites
I know you, so don't come creeping back,
I'm on my feet again
I'll show you, put you out like a cigarette
A metaphor not to forget
To forgive, it's positive
