

Cut to the chase, your pretty face  
Search outer space, leaving no trace  
Making love in the heavens above  
Flying so high, you and I  
You and I, You and I

Can't get my head around you  
Can't bare to be without you  
Can't stop from thinking 'bout you  
You turn my life around  
Can't get my head around you  
Can't bare to be without you  
Can't stop from thinking 'bout you  
You turn my life around

Time standing still, inch time to kill  
Cheating the wheel, there are moments to steal  
So another day gets brushed away  
Pre-occupied, you and I  
You and I, you and I.

Can't get my head around you  
Can't bare to be without you  
Can't stop from thinking 'bout you  
You turn my life around  
Can't get my head around you  
Can't bare to be without you  
Can't stop from thinking 'bout you  
You turn my life around

Yeah, yeah. Oh-oh yeah

Making love in the heavens above  
Flying so high, you and I

Can't get my head around you  
Can't bare to be without you  
Can't stop from thinking 'bout you  
You turn my life around  
Can't get my head around you  
Can't bare to be without you  
Can't stop from thinking 'bout you  
You turn my life around
