

# I Don't Need a Lover

Will Young

Hours fade I take my time  
Lick my wounds and drink my wine  
My heart stopped when you walked in  
You took my breath but let me live

Everybody's got an answer  
Dancing to a song we never asked them to play  
I don't need a lover  
Don't need another heartache to forgive and forget  
A feeling like no other  
Haunts me when I see you loving somebody else  
I don't need a lover  
Don't need another heartache to forgive and forget  
Don't need another lover

Our first touch straight to my spine  
Hits me hard when you pass by  
Never fails to draw me in  
Like throwing sand against the wind

Everybody's got an answer  
Dancing to a song we never asked them to play  
I don't need a lover  
Don't need another heartache to forgive and forget  
A feeling like no other  
Haunts me when I see you loving somebody else  
I don't need a lover  
Don't need another heartache to forgive and forget  
Don't need another lover  
Don't need another lover

I don't need a lover  
Don't need another heartache to forgive and forget  
A feeling like no other  
Haunts me when I see you loving somebody else  
I don't need a lover  
Don't need another heartache to forgive and forget  
Don't need another lover  
Don't need another lover
