

Lover Won't You Stay

Will Young

Ohhhh
I can't deny this strange desire in my heart
So close together we can never be apart
Heal my pain
Let me feel your fire burn alive
Mmmmm the more you give the more I want
Crazy, ain't it just?
A man like me, a girl like you
Is drowning in this love

So won't you come?
Here and fill this empty space between us
The moment seems to steal us away
Girl, you're the one
And I get the strangest feeling
Something tells me summer's on its way
Lover, won't you stay?

I swear that I'm addicted
You could say I can't let go
The more that you invite me girl
The more I want you so
Breath in me
Let your love come down like fire
And rain, and rain
The mood is right, the time is tight
Let's get heavenly
So lock the door, kill the light
Just give yourself to me

Oh won't you come?
Here and fill this empty space between us
The moment seems to steal us away
Girl, you're the one
And I get the strangest feeling
Something tells me summer's on its way
Lover, won't you stay?

I get this feeling
A summer feeling
Lover, won't you stay?
Lover, won't you stay?
Oh yeah

Oh won't you come?
Here and fill this empty space between us
The moment seems to steal us away
Girl, you're the one
And I get the strangest feeling
Something tells me summer's on its way
Lover, won't you stay?

Lover, won't you stay?
Lover, won't you stay?
Lover, won't you?
