

# Tired

Willa Ford

You want the truth?  
Here it is  
Manufactured is this hot pop industry  
I know cause they tried to do it to me  
Don't let them take away your eyes  
Be who you are and stop the sweet talkin' lies  
And you're never gonna see me lip sync  
And you're never gonna see me try to change  
Cause I'm not the one who won't break it down  
Follow me and you'll see that I'm gonna blow the roof off of this town

Tired of the blondes that look like me  
Tired of you people saying "Britney"  
I'm tired of the pop that should flop that should never be on TV  
And in your teen magazines  
I'm tired of the crap I take each day  
Tryin' to sing my songs  
Tryin' ta do it my way  
I'm tired of the pop that should flop that should never be on TV  
And in your teen magazines

Tired of the pop

Shame - It's the game you play for fame  
But give it some time you won't remember their names  
So you will, so you won't  
It's those one-hit wonder melodies who cannot sing a note

And you're never gonna see me lip sync  
And you're never gonna see me try to change  
Cause I'm not the one who won't break it down  
Follow me, and you'll see that I'm gonna blow..  
I'll blow the roof off of this town

Tired of the blondes that look like me  
Tired of you people saying "Britney"  
I'm tired of the pop that should flop that should never be on TV  
And in your teen magazines

Tryin' to sing my songs  
Tryin' ta do it my way  
I'm tired of the pop that should flop that should never be on TV  
And in your teen magazines

Yeah yeah yeah  
Yeah yeah yeah  
Yeah

Tired of the pop  
Tired of the pop  
Tired of the pop, the pop

It's the same old thang  
Over & Over...

And you're never gonna see me lip sync  
And you're never gonna see me change  
Cause I'm the one who breaks it down  
Follow me  
You will see that I'm gonna blow the roof off this town
