

# Turn On The Light

William Beckett

Can I come over?  
Can I stay the night?  
Cause all my friends are sad  
And I need someone,  
Someone to hold me tight  
Cause I've been feeling bad, so bad

We could stay awake for hours,  
We could talk all night  
About everything you want  
About everything you are  
I, I will listen

Am I awake or am I dreaming  
Let's put the moon to bed tonight  
I'll be your shelter when the storm's rolling in  
If you wait for me, wait for me  
Turn on the light

Can I come with you?  
Can I stay awhile?  
Cause I believe in you  
And you believe in life  
The future's wife if you let me inside  
We could dance  
If you give me the change  
I, I'll be waiting

Am I awake or am I dreaming  
Let's put the moon to bed tonight  
I'll be your shelter when the storm's rolling in  
If you wait for me, wait for me  
Turn on the light

And I will build you castles painted white  
Where we could live forever  
We could live forever  
I'd do anything to be with you tonight  
Tonight, I will find you  
Turn on the light

Can I come over?  
Can I stay the night?  
Am I awake or am I dreaming  
Let's put the moon to bed tonight  
I'll be your shelter when the storm's rolling in  
If you wait for me, wait for me  
Turn on the light  
If you wait for me, wait for me  
Stay awake for me, wait for me  
Turn on the light
