

# Dangerous Man

William Clark Green

I caught you standing behind the bar  
Put all my money in your tip jar  
Lord you never even noticed  
Never really cared

Threw you a line and you shot me down  
I ain't no ring leader I'm a damn clown  
I got my foot in my mouth  
Lord with room to spare

She's a tall drink of water and I'm dying of thirst  
Pour me a drink lord make it hurt  
I'm on the edge doing the best I can  
I'm a dangerous man

You got me running around scratching my head  
Tell me what the hell to do next  
Because every time I take the lead, I can't hardly stand  
I gave you courage you stole my pride  
Their counting down I need to be revived  
You knocked me out then you turned around and ran  
I'm a dangerous man

She's a tall drink of water and I'm dying of thirst  
Pour me a drink lord make it hurt  
I'm on the edge doing the best I can  
I'm a dangerous man

You got me running around scratching my head  
Tell me what the hell to do next  
Because every time I take the lead, I can't hardly stand  
I gave you courage you stole my pride  
Their counting down I need to be revived  
You knocked me out then you turned around and ran
