After Afterall

William Fitzsimmons

```
i still love you
i still want you
i still need you
after all
for better or worse
sickness and health
till death do us part
after all
please don't keep me
(please don't leave me)
please don't keep me
(please don't leave me)
please don't keep me
(please don't leave me)
after all
(after all)
after all
(after all)
. . . .
```
