## Let You Break

## **William Fitzsimmons**

To cut out the figure The grounding of this Let melancholic drown

To greener reminders Of better pastures You're beautiful and found

Embattled walls that I have raised To only bring you down A fortune I would gladly trade To swim within the sound

I wish you would I wish you would

I will never, I will never I will never let you break I will never, I will never I will never let you break

The burn of the summer When I first saw you Still upon my brow

The gentle refusal The fear you flourish Let peel away from now

The red that I have run so long The penchant for this flight The memory of this overcomes Lifting now to light

I wish you would I wish you would

I will never, I will never I will never let you break I will never, I will never I will never let you break

I will never, I will never I will never let you break I will never, I will never I will never let you break
