

So This Is Goodbye

William Fitzsimmons

within that final hour you'll
be gone and I wont see you
anymore

You left my love on the line
and said that you were leavin
that you wont come home again
that you wont come home again

And I miss you like your dead
but I never got to greave you
cause I saw you
in the arms of someone new
so your phantom follows me
like a child would his mother
or a lover
who never said goodbye
so this is goodbye

And I cried myself to sleep
and you thought I was happy
I was lonely
and had nowhere to go
and I heard that you moved on
and found a brand new family
and changed your married name
and everything has changed

And I'll miss you like your dead
find a way to greave you
cause I need to
try and start again
and your ghost will have to leave
like a child would his mother
or a lover
who has to say goodbye

so this is goodbye
so this is goodbye
so this is goodbye
so this is goodbye
so this is goodbye
so this is goodbye
