

A Little Unfair

Willie Nelson

You want me to love just you, while you love your share
Don't you think that's a little unfair?

It's me stay home while you stay gone, till you decide to care
Don't you think that's a little unfair?

I can't see, how it can be, anything for me
What's mine is yours, what's yours is yours
That's how you wanted to be

And you want me to wait for you, till you decide to care
Don't you think that's a little unfair?

I can't see, how it can be, anything for me
What's mine is yours, what's yours is yours
That's how you wanted to be

And you want me to wait for you, till you decide to care
Don't you think that's a little unfair?
Don't you think that's a little unfair?
