

And so Will You My Love

Willie Nelson

The music stopped
The crowd is thinning now
One phase of night
Has reached an ending now

And nothing, nothing lasts forever
Except forever and you my love
And so will you, my love, my love

The street is dark here
While I walk along
And since you've gone
I always walk alone

'Cause nothing, nothing lasts forever
Except forever and you my love
And so will you, my love, my love

And so will you, my love
Your memory is always near
Wherever I am found
Your memory is still around

The dawn and I
Arrive at home at last
Night turns it's lonely face
Toward the past

'Cause nothing, nothing lasts forever
Except forever and you my love
And so will you, my love, my love
