

Dreams Come True

Willie Nelson

I just thought, that you would like to know
That I would, do anything, just to make your dreams, just to make
your dreams come true

Well I just thought, that you would like to know, that I... I would
climb the highest tree
Just to make your dreams, just to make your dreams, come true

I know, that it seems like, I am full of hot air
But my heart is in the right place
I swear, I swear

I just thought that you, would like to know, that I... I would
do anything
Just to make your dreams, just to make your dreams come true

Now I know that it seems like, I'm full of hot air
But my heart
My heart is in the right place
I swear, I swear

And I just thought that you, would like to know
That I... I'd do anything... anything, just to make your dreams

Just to make your dreams come true

Just to make your dreams, just to make your dreams...

...

Come true
