

## Forgiving You Was Easy

Willie Nelson

Forgiving you was easy  
But forgetting seems to take the longest time  
I just keep thinking  
And your memory is forever on my mind

You know I'll always love you  
And I can't forget the days when you were mine  
Forgiving you is easy  
But forgetting seems to take the longest time

The bitter fruit of anger  
Growing from the seeds of jealousy  
Oh what a heartache  
But I forgive the things you said to me

'Cause I believe forgiving  
Is the only way that I'll find peace of mind  
And forgiving you is easy  
But forgetting seems to take the longest time

The years have passed so quickly  
As once again fate steals a young man's dreams  
Of all the golden years  
And growing old together you and me

You asked me to forgive you  
You said there was another on your mind  
And forgiving you is easy  
But forgetting seems to take the longest time  
Forgiving you is easy  
But forgetting seems to take the longest time
