

Gotta Walk Alone

Willie Nelson

I gotta walk alone
My sweetheart's gone
Nobody here loves me now
It's a long and lonesome road
I've got to walk alone

All the friends I knew
By two and two
Have left me one by one
It's a long and lonesome road
I've got to walk alone

Don't know where
Don't even care
I just keep walking on and on

All the friends I knew
By two and two
Have left me one by one
It's a long and lonesome road
I've got to walk alone

Don't know where
Don't even care
I just keep walking on and on

All the friends I knew
By two and two
Have left me one by one
It's a long and lonesome road
I've got to walk alone
