

I Can't Find the Time

Willie Nelson

I've searched through each moment of each passing hour
But your memory grows stronger I find
Oh, they tell me in time I'll forget you
But somehow I can't find the time

They tell me in time I'll find another
And happiness again will be mine
Oh, they tell me in time I'll forget you
But somehow I can't find the time

Somethin' each moment reminds me of you
You always end up on my mind
Oh, they tell me in time I'll forget you
But somehow I can't find the time

Somethin' each moment reminds me of you
You always end up on my mind
Oh, they tell me in time I'll forget you
But somehow I can't find the time
