

# I Can't Find the Time

Willie Nelson

I've searched through each moment of each passing hour  
But your memory grows stronger I find  
Oh, they tell me in time I'll forget you  
But somehow I can't find the time

They tell me in time I'll find another  
And happiness again will be mine  
Oh, they tell me in time I'll forget you  
But somehow I can't find the time

Somethin' each moment reminds me of you  
You always end up on my mind  
Oh, they tell me in time I'll forget you  
But somehow I can't find the time

Somethin' each moment reminds me of you  
You always end up on my mind  
Oh, they tell me in time I'll forget you  
But somehow I can't find the time
