I Can't Find the Time

Willie Nelson

I've searched through each moment of each passing hour But your memory grows stronger I find Oh, they tell me in time I'll forget you But somehow I can't find the time

They tell me in time I'll find another And happiness again will be mine Oh, they tell me in time I'll forget you But somehow I can't find the time

Somethin' each moment reminds me of you You always end up on my mind Oh, they tell me in time I'll forget you But somehow I can't find the time

Somethin' each moment reminds me of you You always end up on my mind Oh, they tell me in time I'll forget you But somehow I can't find the time
