I Don't Feel Anything

Willie Nelson

I don't feel anything what was I worried for I don't feel love or hate or anything that I felt before Why was I so afraid of seeing you again Cause it's the strangest thing I don't feel anything How I must have loved you once upon a time And I can't seem to feel emotion now of any kind Why was I so afraid of seeing you again Cause it's the strangest thing I don't feel anything

You look the same as always time's been good to you But I must confess that time has done a few things for me too Why was I so afraid... But it's the strangest thing I don't feel anything
