

# It's Not Supposed To Be That Way

Willie Nelson

It's not supposed to be that way you're supposed to know that I  
love you  
But it don't matter anyway if I can't be there to control you  
And like the other little children you gotta dream a dream or t  
wo  
But be careful what you're dreamin' or soon your dreams'll be d  
reamin' you  
It's not supposed to be that way you're supposed to know that I  
love you  
But it don't matter anyway if I can't be there to console you  
And when you go out to play this evening play with fire flies t  
ill they're gone  
Then you rush to meet your lover and play with real fire till t  
he dawn  
It's not supposed to be that way you're supposed to know that I  
love you  
But it don't matter anyway if I can't be there to console you
