

# Make Way for a Better Man

Willie Nelson

Give me talkin' now  
You tried to make her happy  
You couldn't make her happy  
Make way for a better man than you  
You tried your brand of lovin'  
She couldn't stand your lovin'  
Make way for a better man than you  
I held back cause you and I were friends  
But old buddy this is where our friendship ends  
I'm takin' over now those signals she keeps sendin' means your  
romance is endin'  
Make way for a better man than you

Those fancy words you told her  
Were not enough to hold her  
Make way for a better man than you  
I guess you're in your lockout  
You came to back and struck out  
Make way for a better man than you  
I held back cause you and I...  
Make way for a better man than you
