

Make Way for a Better Man

Willie Nelson

Give me talkin' now
You tried to make her happy
You couldn't make her happy
Make way for a better man than you
You tried your brand of lovin'
She couldn't stand your lovin'
Make way for a better man than you
I held back cause you and I were friends
But old buddy this is where our friendship ends
I'm takin' over now those signals she keeps sendin' means your
romance is endin'
Make way for a better man than you

Those fancy words you told her
Were not enough to hold her
Make way for a better man than you
I guess you're in your lockout
You came to back and struck out
Make way for a better man than you
I held back cause you and I...
Make way for a better man than you
