Make Way for a Better Man

Willie Nelson

Give me talkin' now You tried to make her happy You couldn't make her happy Make way for a better man than you You tried your brand of lovin' She couldn't stand your lovin' Make way for a better man than you I held back cause you and I were friends But old buddy this is where our friendship ends I'm takin' over now those signals she keeps sendin' means your romance is endin' Make way for a better man than you

Those fancy words you told her Were not enough to hold her Make way for a better man than you I guess you're in your lockout You came to back and struck out Make way for a better man than you I held back cause you and I... Make way for a better man than you
