

# Man with the Blues

Willie Nelson

If you need some advice in being lonely  
If you need a little help in feelin' blue  
If you need some advice on how to cry all night  
Come to me I'm the man with the blues

I'm the man with a hundred thousand heart aches (a good selecti  
on all in blue)  
And I've got most any color of the blues  
So if you need a little shove in foulin' up in love  
Come to me I'm the man with the blues

You have a trusting man you can depend on  
He tells you youA're the one he dearly loves  
Your not content to be his wife you long for the restless life  
Come to me I'm the man with the blues
