Man with the Blues

Willie Nelson

If you need some advice in being lonely
If you need a little help in feelin' blue
If you need some advice on how to cry all night
Come to me I'm the man with the blues

And I've got most any color of the blues So if you need a little shove in foulin' up in love Come to me I'm the man with the blues

You have a trusting man you can depend on He tells you youA're the one he dearly loves
Your not content to be his wife you long for the restless life
Come to me I'm the man with the blues
