

## One in a Row

Willie Nelson

If you can truthfully say that  
You've been true just one day  
Well that makes one in a row  
One in a row, one in a row  
And if you can look into my eyes  
One time without telling lies  
Well that makes one in a row  
One in a row, one in a row  
Why do I keep loving you after all

The things you do  
And just one time come into my arms  
And be glad that you're in my arms  
That will make one in a row  
One in a row, one in a row  
Why do I keep lovin' you...  
One in a row, one in a row
