

Over You Again

Willie Nelson

I gotta get over you again
I gotta get over you again
I had my heart wide open
And you just walked right on back in

You can't imagine
Just how hard It's been
Now I gotta get over you
I gotta get over you again

We never really had a chance
We never really had a chance at all
I was carrying more luggage
Than U-haul truck could haul

And I had It all worked out
We'd only be the best of friends
Now I gotta get over you
I gotta get over you again

Maybe I never really got over you at all

And I've been looking in the mirror
Lying like a dog
Supposed to be so easy
Like falling off a log
And I started thinking
Thinking about things that might have been

Now I gotta get over you
I gotta get over you again
And I gotta get over you
I gotta get over you again

I gotta get over you
I gotta get over you again
I gotta get over you
I gotta get over you again
I had my heart wide open
And you just walked right on back in
And I gotta get over you
I gotta get over you again
