Pretend I Never Happened

Willie Nelson

Just pretend I never happened erase me from your mind You will not want to remember any love as cold as mine

I'll be leaving in the morning for a place I hope I find All the place must be better than the ones I leave behind I don't suppose you'll be unhappy you'll find ways to spend you r time

But if you ever think about me and if I ever cross your mind Just pretend I never happened...

I don't suppose you'll be unhappy...

Just pretend I never happened...

You will not want to remember any love as cold as mine
