

# Teach Me to Forget

Willie Nelson

You taught me how to love with all my heart with all my soul I  
trusted you  
And now you say we'll have to live apart a thing I don't know h  
ow to do  
You said someday I'd find somebody new and I'll have not one re  
gret  
But stay a while if what you say is true stay and teach me to f  
orget

You taught me how to worship you alone and now you say you'll h  
ave to go  
And people call me on the telephone just to say I told you so  
I know now that I only learned to live on the night when first  
we met  
God above will teach me to forgive but stay and teach me to for  
get  
Please stay and teach me to forget
