

The Wall

Willie Nelson

I took on more than I could handle
I bit off more than I could chew
I hit the wall

I went off like a Roman candle
Burning everyone I knew
I hit the wall
I hit the wall

And the wall came down
Crashing down
And there was not a sound

Half my life riding on a rocket
From one world to the next
And on and on
I hit the wall

Taking things to make it make me better
Remembering things I never knew I knew
I hit the wall
I hit the wall

And the wall came down
Crashing down
And there was not a sound

And the wall came down
Roaring, crashing down
And there was not a sound

And the wall came down
Crashing down
And there was not a sound
