

# The Way You See Me

Willie Nelson

Birds flying south to the one I love  
Birds flying high and free  
Don't tell my darling that you saw me  
Looking the way you see me

And winds blowing warm to the one I love  
Winds please kiss her for me  
But don't tell my darling that you saw me  
Looking the way you see me

The way you see me is how I've been  
And however since she's been gone  
Just tell her you saw me like I'd like to be  
And tell her I'm happy alone

That river of tears that I have cried  
River flow on to the sea  
But don't tell my darling  
That you flowed from my eyes  
For she'll see me the way you see me

The way you see me is how I've been  
And however since she's been gone  
Just tell her you saw me like I'd like to be  
And tell her I'm happy alone

River of tears that I have cried  
River flowin' on to the sea  
But don't tell my darling  
That you flowed from my eyes  
For she'll see me the way you see me  
She'll see me the way you see me
