

Where Do You Stand?

Willie Nelson

I'm somewhere behind you
You've come with your suitcase in hand
Hey, what you plan, where do you stand?

The world's still divided
And you're still undecided, the side if you can

Hey, what you plan, where do you stand?
Where do you stand, where do you stand?
Hey, what you plan, where do you stand?

It's time for commitments
It's time for a showing up hands
Hey, what you plan, where do you stand?

Surely there's someone with courage
To say where he stands
Hey, what you plan, where do you stand?
Where do you stand, where do you stand?
