

## Where Do You Stand?

Willie Nelson

I'm somewhere behind you  
You've come with your suitcase in hand  
Hey, what you plan, where do you stand?

The world's still divided  
And you're still undecided, the side if you can

Hey, what you plan, where do you stand?  
Where do you stand, where do you stand?  
Hey, what you plan, where do you stand?

It's time for commitments  
It's time for a showing up hands  
Hey, what you plan, where do you stand?

Surely there's someone with courage  
To say where he stands  
Hey, what you plan, where do you stand?  
Where do you stand, where do you stand?
