

You Always Hurt the One You Love

Willie Nelson

You always hurt the one you love
The one you shouldn't hurt at all
You always take the sweetest rose
And crush it till the petals fall

You always break the kindest heart
With a hasty word you can't recall
So if I broke your heart last night
It's because I love you most of all

And you always break the kindest heart
With a hasty word you can't recall
So if I broke your heart last night
It's because I love you most of all
