

You Decide

Willie Nelson

You decide
What you need
And then you let me know
I'll be waiting here until you call

Take your time
Till you find
Which way your heart must go
And when you decide, let me know

Don't you worry if you see me cry
I would rather have you say goodbye
Than to be the one that you say you love
If I can't be the one that you're dreaming of

You decide
What you want
And I'll be waiting here
You already know how much I care

You decide
And we'll just go from there

Don't you worry if you see me cry
I would rather have you say goodbye
Than to be the one that you say you love
If I can't be the one that you're dreaming of

You decide
What you want
I'll be waiting here
You already know how much I care

You decide
We'll just go from there
You decide
And we'll just go from there
